

## THE GAZETTE.

FRIDAY, MAY 27.

Edgar L. Wakeman says he can give the names and addresses of 1,000 Republicans whose combined wealth will exceed \$40,000,000.

There has been such thorough work done in bouncing republicans that not a single one is left in any federal office in Tennessee. The democratic governor of that state exults over the completeness of "the clean sweep" which has been made in the interest of his party.

Another reason why the interstate commerce law should be repealed: "Two newspaper publishers were run over and killed on a Pennsylvania railroad on Saturday. When the company pays their families \$10,000 apiece damages it will drive another nail into the coffin of the interstate commerce act. Under the old free press system reporters could be killed with impunity."

Senator Stewart, of Nevada, says that instead of cutting off the railroad passes of senators and representatives, as has been done by the interstate commerce law, he would give them all passes and compel each man to travel at least 5,000 miles a year, in order to have them learn something about all parts of the country for which they have to legislate.

General George A. Sheridan says he got more money for less naval service than any other man who ever served in congress. He was not admitted to his seat until about three hours before the expiration of his term, and he drew salary, mileage, etc., amounting to about \$14,000. In that respect he thinks his congressional fame will be immortal.

Miss Mary Tillinghast, of New York, is one of the most successful of the women engaged in decorative art. Van derbilt once paid her \$30,000 for inventing a new kind of tapestry hangings for his house. She also supplied the fine design representing Jacob's dream for the stained window recently constructed in Grace church, New York, which is much admired.

The greatest destruction of horses ever known in this country took place in New York city on Thursday night at the burning of the Belt Line street railway stables. There were 1,000 horses in the stables and several hundred cars. Only ten horses and two cars were saved from the holocaust. The loss to the street railway company is estimated at \$400,000. Seventy-five buildings were destroyed, and the aggregate loss is said to be \$1,000,000.

It is said that one of the largest cash transactions ever known in this country will take place on the 5th of June, at the office of the Fidelity Trust and Safe Deposit Company, of Philadelphia. Mr. Chalmers Tower will on that day hand over to a syndicate the stock and bonds of the Duluth and Iron Range railroad and the title deeds to some 20,000 acres of land in Minnesota, and will receive in return certified checks on banks and financial institutions to the amount of over \$6,000,000.

Only a few years ago there was not a single republican in the legislature of Kentucky; but a corps of New England school teachers invaded the place, and the result is that a republican mayor and three republican councilmen have just been elected there. Thus, it will be seen, the hostility of the Kentucky legislature to popular education is based upon substantial considerations of party safety and welfare.—E.T.

The most effective way to wipe out big democratic majorities in counties is to plant plenty of school houses therein. Democracy cannot thrive in the rural districts where teachers are active and intelligent and where school houses are numerous.

The finances of the Canadian government are in a bad way, if we judge by what the Toronto Mail, a paper that is very slow in admitting that anything Canadian is not just right, says. The Mail says that the Canadian debt is steadily increasing, and the estimates show an increase of \$7,500,000 for debt charges, the debt charges of ten years ago. The debt charges, in fact, now eat up a third of the revenue, the average annual charge per head being \$2 for the benefit of creditors and \$4 for the treasury. The present net debt is \$225,000,000, and the Mail says that if the bad assets are thrown out it is nearer \$275,000,000. The debt is creeping up to an amount of \$30 per head of the population, or about double the per capita debt of the United States. With this state of affairs hanging over the heads of the people, it does not seem that they can be in a very gleeful frame of mind to contribute to the queen's jubilee.

### REORGANIZING PARTIES.

There has not been a time in the last dozen years or more when the democratic party was more out of sorts with itself, or more dispirited than it is at present. The election of a democratic president has not solidified the party. The spoils of office, however freely they have been distributed among the bureaucracy of the party, have not had the effect to make the party harmonious in its sentiment and aims. In fact, the distribution of offices seems to have made the democratic party more divided than ever before Mr. Cleveland was elected. This thing has gone on so far that the Louisville Courier Journal, the leading democratic paper in Kentucky, demands that there shall be a re-creating of the political forces, that the democrats cannot continue for a lack of unity their convictions for the sake of associations from which the light has gone out, and labels saying served the turn of quick bullets until they no longer desire anybody, must in time come to have some definite mission.

### LANSDOWNE AT OTTAWA.

THE CITY OPENS ITS ARMS TO THE GOVERNOR GENERAL.

Who Refers to O'Brien, but Has Nothing to Say Against Him—An Irish-American Who Thinks the Editor's Tone All-Admired—The Agitation Enthusiastically Welcomed at Montreal.

OTTAWA, Ont., May 27.—Whatever doubts may have existed as to the loyalty of the editor of the Ottawa Citizen, they were dispelled by the demonstration of Thursday night, when the reception given to the Governor General, Lord Lansdowne, was a fitting tribute to his services to the country. The demonstration was a fitting tribute to his services to the country. The demonstration was a fitting tribute to his services to the country.

Lord Lansdowne, who arrived in Ottawa on Thursday morning, was met by a large number of officials and citizens. He was then taken to the Governor General's residence, where he was entertained with a sumptuous dinner. The Governor General, Lord Lansdowne, was met by a large number of officials and citizens. ### MILITARY COMPETITIONS.

Toledo Looks Like a Prize Winner—Some Good Shooting.

WASHINGTON CITY, May 27.—The national drill competition was crowded with people who in many cases were not there to see the competitors, but to see the Governor's Guards, of North Carolina. Their movements were very smooth. The Toledo drill team, which was the champion of the competition, was the most successful. They were the most successful.

The Toledo drill team, which was the champion of the competition, was the most successful. They were the most successful. The Toledo drill team, which was the champion of the competition, was the most successful. They were the most successful.

# The Janesville Daily Gazette.

VOLUME 31

Entered as the Post Office at Janesville, Wis., a second-class matter.

JANESVILLE, WISCONSIN FRIDAY, MAY 27, 1887.

Published Every Evening Except Sunday, at \$6 a Year

NUMBER 66

## THE GAZETTE.

FRIDAY, MAY 27.

Edgar L. Wakemans says he can give the names and addresses of 1,000 persons who combined with him to extend \$40,000,000.

There has been such thorough work done in honoring republicans that not a single one is left in any federal office in Tennessee. The democratic governor of that state exults over the completeness of "the clean sweep" which has been made in the interest of his party.

Another reason why the inter-state commerce law should be repealed: "Two newspaper reporters were run over and killed on a Pennsylvania railroad on Saturday. When the company pays their families \$10,000 apiece damages it will drive another nail into the coffin of the inter-state commerce act. Could the old free press system reporters could be killed without expense."

Senator Stewart, of Nevada, says that instead of cutting off the railroad passes of senators and representatives, as has been done by the interstate commerce law, he would give them all passes and compel each man to travel at least 5,000 miles a year, in order to have them learn something about all parts of the country for which they have to legislate.

General George A. Shurcliff says he got more money for less actual service than any other man who ever served in congress. He was not admitted to his seat until about three hours before the expiration of his term, and he drew salary, mileage, etc., amounting to about \$14,000. In that respect he thinks his congressional life will be immortal.

Miss Mary Tillghast, of New York, is one of the most successful of the women engaged in decorative art. Vanderbilt once paid her \$30,000 for inventing a new kind of tapestry hangings for his house. She also supplied the fine design representing Jacob's dream for the stained window recently constructed in Grace church, New York, which is much admired.

The greatest destruction of horses ever known in this country took place in New York city on Thursday night at the burning of the Belt Line street railway stables. There were 1,800 horses in the stables and several hundred cars. Only ten horses and two cars were saved from the holocaust. The loss to the street railway company is estimated at \$400,000. Seventy-five buildings were destroyed, and the aggregate loss is said to be \$1,000,000.

It is said that one of the largest cash transactions ever known in this country will take place on the 5th of June, at the office of the Fidelity Trust and safe Deposit Company, of Philadelphia. Mr. Charles Mackay, of New York, who has been a syndicate to the stock and bonds of the Duluth and Iron Range railroad and the title deeds to some 20,000 acres of land in Minnesota, and will receive in return certified checks on banks and financial institutions to the amount of over \$6,000,000.

Only a few years ago there was not a single republican vote cast at Clinton, Ky.; but a corps of New England school teachers invaded the place, and the result is that a republican mayor and three republican councilmen have just been elected there. It will be seen, the hostility of the Kentucky democrats to popular education is based upon antipathy and not upon any real animosity to the welfare of the state.

The most effective way to wipe out big democratic majorities in counties is to plant plenty of school houses therein. A democracy cannot thrive in the rural districts where teachers are active and intelligent and where school houses are numerous.

The finances of the Canadian government are in a bad way, if you judge by what the Toronto Mail, a paper that is very slow in admitting that anything Canadian is not just right, says. The Mail says that the Canadian debt is steadily increasing, and the estimates include \$11,572,000 for debt charges, being an increase of \$3,500,000 over the debt charges of ten years ago. The debt charges, in fact, now eat up a third of the revenue, the average annual charge per head being \$2 for the benefit of creditors and \$4 for the treasury. The present net debt is \$225,000,000, and the Mail says that if the bad assets are thrown out it is nearer \$275,000,000. The debt is creeping up to an amount of \$300 per head of the population, or about double the per capita debt of the United States. With this state of affairs hanging over the heads of the people, it does not seem that they can be in a very efficient frame of mind to contribute to the queen's jubilee.

### REORGANIZING PARTIES.

There has not been a time in the last dozen years or more when the democratic party was more out of sorts with itself, or more divided than it is at present. The election of a democratic president has not unified the party. The spoils of office, however freely they have been distributed among the hungry of the party, have not had the effect to make the party harmonious in its sentiment and aims. In fact, the distribution of offices, seems to have made the democratic party more divided than ever before Mr. Cleveland was elected. This thing has gone on so far that the Louisville Courier Journal, the leading democratic paper in Kentucky, demands that there shall be a re-organization of the party, so that the democratic cannot continue forever to stultify their convictions for the sake of associations from which the light has gone out, and labels having served the turn of quick doctors until they no longer deserve anybody, must in time come to have some definite meaning.

Then, speaking of the disordered condition of the democratic party, the Courier-Journal makes the following quotation:

Necessarily the prevailing confusion is greatest at the south. In the south, as little as in the north, can all men think alike. Yet the sectional issue, forced by the republicans upon the south from without, and the race issue, fomented by the south against the republicans, have complicated this circumstance within the confines of the old slave states, have compelled by the force of the elements of resistance solely for the sake of self-preservation.

Showing the plight the democratic party is in regard to the spirit of the press, the Courier-Journal says:

Already there are six prominent newspapers, democratic in name, which, in all points except that of sentiment grow out of association, are as reliably republican as the Philadelphia Press. There is nothing democratic which these papers fail to assail. There is no republican measure or policy which they fail to support. They are, of course, followers of Mr. Randall, for purposes of convenience, since Mr. Randall was a democratic leader, but in most matters except the tariff they are not even as reliable as democrats as Mr. Randall is, because on every other issue they incline to the republican side of the house.

This condition of things as presented by a democratic paper does not promise well for the future of the party. Then what is the remedy? The Courier-Journal admonishes the party leaders to throw overboard all protectionists, prohibitionists, and magnumm, and to let the party stand upon solid democratic rock.

But this will not prove a remedy. There is no solid rock for the party to stand upon. There is a strong protective sentiment in the south, especially in the sections that are markedly prospering in manufacturing industries. They want protection because they want success, and success cannot be won without it.

### PREACHING WHAT HE DOESN'T PRACTICE.

No one will deny that Mr. George Williams Curtis is a very able man in letters. He is a graceful writer, an accomplished lecturer and a bright scholar. He has made some very telling political speeches for the republican party, a fair sample being the one he delivered three years ago in the national republican convention, when he showed up the democratic party in its true light. He has written many beautiful things, especially on art, literature and society, but of late his political productions have borne the earmarks of an impracticable man.

The other day he delivered an address before the Commonwealth Club, of New York, upon the political situation. He said a good many things that were proper to say, but among the few utterances worthy of special note was one to the effect that the present had honestly tried to carry out the principles of civil service reform, and that "the most serious obstruction" he had met with was the democratic party. In this connection the speaker alluded to the resolutions of the Kentucky democratic state convention, upon the recent resolutions of the Kentucky democratic state convention. When that address reached Kentucky, the framer of the Kentucky democratic platform said:

The editor of Harper's Weekly has passed his life traveling around a circle of his own conceits. He knows less than nothing of his native country and is as un-American as he is undemocratic. The least of the fashionable follies which engage the attention of European society seems to attract more interest in the boom than the greatest affairs of plainest folk at home; and when he happens, as he occasionally does, to turn to domestic affairs he treats them as bits of Sèvres glassware.

With a heart and a will to fight, his boldest horrors are manhood and life. If Mr. Curtis' ideal republic could be set up at Washington the government of the United States would be represented by a man who would be a disgrace to the name of a citizen, and a blot upon the name of a statesman.

There is a good deal of truth in this criticism. Mr. Curtis belongs to the class of men who are called "political writers." On as Mr. Conkling once very properly and facetiously called him, "the man milliner," for of that style of men is he, a fitting representative of "one who wears regulation clothes and is pretty."

During Mr. Curtis' address, he took occasion to say, "I think there are probably more republicans who are in favor of civil service reform than democrats." And yet Mr. Curtis gives his support to the party which opposes civil service reform. He claims that the president is as much better than his party that he is going on in spite of the democrats in the direction of reforming the civil service, while the cold fact remains that there has been practically a clean sweep of all republican office-holders in the country—hardly one of prominence remaining in office. He charges that the press of the country is politically demoralized, while there is not in all the states a more servile publication than Harper's Weekly, which Mr. Curtis edits, for however much the president stumbles and founders among the civil service boys, and however frequently he gives the lie to his own professions, the Harper's stands by him. It swallows the dose and calls it good.

Mr. Curtis also criticized both parties for their lack of interest in civil service matters. Before he did this he should have given some of his experience as a civil service commissioner in 1869, to which office he was appointed by General Grant.

Refused to Obey the Order. Indianapolis, Ind., May 27.—An order issued by the District assembly, Knights of Labor, Wednesday night, requiring the street car drivers to still remain in the company's employ to go out, was practically nullified Thursday, but part of the employees obeying the company's order being able to run about the city as a result. The men say that the order was not properly issued and that they would not be held liable for a hearing in the matter.

Dr. Carter's Blood Purifier is the only blood purifier guaranteed. It is a positive cure for Ulcers, Eruptions, or Syphilis. It purifies the whole system, and banishes all Rheumatic and Neuralgic pains. We guarantee it. Sold by Prentice & Evenson, O. P. O.

## LANDSOWNE AT OTTAWA.

THE CITY OPENS ITS ARMS TO THE GOVERNOR GENERAL.

Who Refers to O'Brien, but Has Nothing to Say Against Him—Law—An Irish-American Who Thinks the Editor's Irish All-Advised—The Agitator Enthusiastically Welcomed at Montreal.

OTTAWA, Ont., May 27.—Wonder does not exist as to the reception of the citizens of Ottawa to the queen, they must have been dissatisfied by the grand reception given Landsowne Thursday on his return to the capital. To the citizens of Ottawa, the history of the Canadian has been a long one, and it is not to be expected that any of his predecessors have been accorded such a welcome. It may, however, be said that the demonstration of Thursday was to show that at least the people of Ottawa were not in sympathy with the O'Brien movement against his country, owing to which fact the enthusiasm may be partly attributable. Whether the reception reflects the general sentiment of the people of Canada only, the reception given to Landsowne in other portions of the Dominion will prove. The most loyal, honest and patriotic of the people of Thursday must show that at least Ottawa is not in accord with the campaign against Landsowne. From early morning the streets were alive with citizens dropping their principal business and going to the city, and at noon the town was a forest of bunting. Conspicuously among the display it may be said the American flag floated.

Lord and Lady Landsowne and suite arrived by special train at noon, were met by a large party at the railway station to meet them. The vice royal party alighted on the platform, where they were received by the reception committee. Half a dozen bands struck up the national anthem, while the assembly, with uncovered heads, shouted itself hoarse. A procession, headed by 300 horsemen, was then formed, and, amidst enthusiastic cheering, a start was made for the city square, near the parliament buildings. The vice royal party, headed by the governor general, Lord Landsowne, Major Stewart, and Sir John Macdonald, Premier, and other cabinet members, many members of parliament, senators, as well as 4,000 citizens on foot and in carriages, brought the train to a halt.

When half the route had been traversed 100 young men unshod and the vice royal's horses and dragged the carriage to the city square, where 5,000 citizens were assembled. After the presentation of an address by Mayor Stewart and the reading of a poem by Father Damsen, the Canadian poet in reply. Lord Landsowne delivered a speech in which he said that the reception, he said, was a very favorable one for the Canadian people, and that he was glad to see that the only reason he could give for it was the fact that Canada had been invaded by an enemy—referring to O'Brien. This enemy as the speaker secured possession of the scene, giving glowing accounts of prospective success. He said, however, that the Canadian people did not greet this new arrival, displaying genuine loyalty instead.

Two thousand school children then sang "God Save the Queen" and other national anthems, concluding with a song on the old war song, "We'll Hang 'em to a Sour Apple Tree." The procession was then reformed. It proceeded to Lord Landsowne's official residence, Rideau hall, where it disbanded.

The city at night was alive with excitement. In honor of the event the house of commons and senate unanimously agreed to an adjournment.

O'Brien Reaches Montreal. Montreal, Que., May 27.—The train bearing Mr. O'Brien here shortly after 10 o'clock Thursday evening. A great crowd awaited it. The carriage which Mr. O'Brien took was drawn to St. Lawrence hall by his enthusiastic admirers, who unhesitatingly rushed from the balcony of the hotel. He said he had traversed Canada unharmed and had informed the people of the facts they should know, and had returned unharmed and assured of the sympathy of the people.

Mr. O'Brien is still quite weak.

AGASSY, N. Y., May 27.—Just before the New York legislature adjourned this morning, Mr. William O'Brien was introduced to the assembly, and made a ten minute speech, in which he acknowledged the sympathy extended to the Irish cause by the American people, and predicted its early triumph.

A Royal Good Fellow but Hasty. St. Paul, Minn., May 27.—Hon. F. H. Kelly, who has been in the north-west, is just home from a visit to Montreal and other parts of Canada. He was seen by a reporter on Editor O'Brien's crusade against Landsowne. He did not hesitate to denounce the Irish agitator's move as impolitic in the extreme. Although there were several Irishmen in the crowd, Kelly said Mr. Kelly, who was not consulted by Mr. O'Brien, who is a royal good fellow, but in this matter he is acted impulsively and hastily. The only result accomplished by his visit has been to cause more the bonds between Queen Victoria and Lord Landsowne.

Mysterious Murder of a Dayman. Columbus, Ohio, May 27.—At a late hour Thursday night one of three young men who were attempting to effect an entrance into Charles Peak's home, a wealthy dayman living two miles east of this city, shot Peak in the stomach, he having raised a window to look into the yard to ascertain the cause of suspicious noises. Peak is mortally wounded.

Three young men answering the same description attempted to enter Peak's house a year ago.

CHARGE KILLED OF Toledo Mike Shepp. PITTSBURGH, Pa., May 27.—The late Mike Shepp, who arrived from Buenos Ayres Thursday brings news that the city is killing off people like sheep in that city and its suburbs. The disease is rapidly spreading. The corpses were removed from the streets by the city of ground and buried. Chief Officer Gaylor of the McLeod is authority for these statements.

Made an Exception as to Tugs. WASHINGTON, D. C., May 27.—Recent correspondence with the Canadian government has led to a modification of the maritime regulations of Canada so that all rights and privileges granted to Canadian tugs in waters under the jurisdiction of the United States will hereafter be extended to American tugs in Canadian waters.

Another Explosion in Nanticoke Pitt. WILKESBARRE, Pa., May 27.—An explosion of dynamite occurred at noon Thursday in the No. 1 of the St. Lawrence. Coal company at Nanticoke. Three miners named Sheehan, Cosgrove and Zolinski were probably fatally injured. This is the same mine in which twenty-six miners were buried alive in December, 1885.

A Rumor in the Coke Region. PITTSBURGH, May 27.—A rumor was circulated at Greensburg Thursday that it would be broken the coke syndicate has arranged with an eastern employment bureau to have 10,000 American citizens in the region on Saturday or Sunday to take the place of the strikers.

## MILITARY COMPETITIONS.

Toledo Looks Like a Shoo-Winner—Some Good Shooting.

WASHINGTON, D. C., May 27.—The national drill competition was crowded with people when the competitive company drills began at 10 a. m. Thursday. First came the Governor's Guard, of North Carolina. Their movements were very smooth, but they did not excel in the manual of arms. The Louisiana Rifles drilled in such a manner as to elicit much applause. The Sanfield guards, of Connecticut, in the manual of arms were excellent, but in military exercises were deficient. Company C, First New Jersey, were the next contestants, but neither in marching nor the manual drill they drill so as to bring forth much applause.

The principal feature of the day, however, was the drilling of the Toledo Cadets, and a superb exhibition of the manual of arms it proved to be. They were so fully drilled that the officers' commands could be heard through the manual and marching, was excellent, and it was generally conceded that no other company before them had done near so well. Several serious errors were, however, credited to them.

The manual feature of the day, however, was the drilling of the Toledo Cadets, and a superb exhibition of the manual of arms it proved to be. They were so fully drilled that the officers' commands could be heard through the manual and marching, was excellent, and it was generally conceded that no other company before them had done near so well. THE GAZETTE.

FRIDAY MAY 27.

LOCAL MATTERS.

Aprioof squares at the Star.

It is a parcel that you are looking after we have the stock to please you and our prices are very low.

BOTT, BAILEY & CO.

Dr. Vance will be at the Myers House next Friday.

Wm. Ferguson, of the La Mode Grocery, would announce to his patrons that they have just received a fine lot of Snow Flake Soda Biscuits with their fancy groceries. Also Teas, Coffee, Sugar and a lot of choice staple goods too numerous to mention.

MONEY FOUND.—Many people who come in to inspect our stock find it like picking up money to take advantage of the prices we offer on reliable and stylish goods. The advantage we are giving buyers is clearly marked and we count comparison quality for quality and price for price. We want your business and no matter whether you are a large or small buyer we shall make prices that will insure your staying with us. It is easy to look into this matter and you run no possible risk in satisfying yourself before you buy. We are glad to show goods but we do not urge them upon unwilling customers. If the quality of our goods and the prices asked do not convince you that we are offering bargains, then no eloquence of ours could induce you to buy.

BROWN BROS.

WANTED.—Any man wishing a good paying position, to call on M. O. Heckard, room 12, Park house.

Dates creams at the Star.

SALESMEN WANTED.—Good pay. S. A. McCombs & Co., Nureysimco, Rochester, N. Y.

Peppermint creams at the Star.

THE GLORIOUS SPORT.

Come let us into a cheer!

The base ball season's here.

And everybody's heart with it is filled, filled, filled.

We'll be the grounds away.

Our five cents will pay

To watch the game and see the umpire killed.

Killed, killed.

—Boston Courier.

SHIFTELETS.

No school on Monday.

—O. W. Jackson's house begins to assume shape.

—Those who know say that "heavenly hush" was well named.

—Fresh paint has improved the appearance of the Merchants' & Mechanics' bank.

—Who will be the next party to erect a building abutting the Milwaukee street bridge?

—All circuit court jurors not engaged in the Hawthorn case were excused until Tuesday.

—Mr. Nels Carlson, who has been quite low for several days with pneumonia, is now much better and is rapidly recovering.

—It would be difficult to find a more attractive interior than that of L. L. Clark's West Milwaukee street shoe store, since its re-fitting.

—Supt. Morrill, of the New Gas Light Co., is busy putting in the service pipe for the gas light in the center of Fourth avenue bridge.

—The Janesville Guards last evening accepted the invitation of the Grand Army Post, and will participate in the services on Memorial Day.

—Civil Engineer Williams, in charge of the construction of the Janesville water works, expects to commence outdoor work on the plant sometime next week.

—Marshal Hogan has sold the colt that he drove once or twice on the patrol wagon this spring, to a Chicago party, for a round sum. The animal was shipped this morning.

—Janesville stands a good chance of losing its now only shoe factory, as Richardson & Marshall are talking of going to Minneapolis.—Beloit Free Press.

Oh, no; we've got the "out off."

—Deaths received in the city today announce the death of the daughter of Mr. and Mrs. Daniel Strunk, of Minneapolis. The young lady formerly lived in this city and was married only last winter.

—Judge Bennett continued the case of Halliday against Gatra for the term. The case of the Norwegian Plow Company against ex-sheriff Hawthorn, was on trial all day, the arguments being made this afternoon.

—In the jury trial of the case of Ryan against Duffy in Justice Pichard's court yesterday afternoon, notice of which appeared in last evening's Gazette, a verdict was rendered in favor of the defendant, the jury being out about fifteen minutes.

—The committee in charge of the Memorial Day exercises, request the school children to volunteer their services to-morrow in gathering wild flowers for use on Monday, leaving the same at Post hall early on Monday morning.

—Mr. and Mrs. J. R. Pease entertained a large and pleasant company of friends last evening at their beautiful home on the corner of Prospect avenue and Cornell street. Nearly ninety were present. That the company enjoyed themselves, is needless to say, for the hospitality of Mr. and Mrs. Pease is proverbial.

—City Attorney Pierce has been requested by several of the aldermen to draw up an ordinance forbidding any swimming within the city limits. This will be presented at the next meeting of the council as well as an ordinance to abate such nuisances as loud smelling barn yards.

—George Rieder's team broke their hitching strap while standing on West Milwaukee street this afternoon, and started for the stable in Emerald Grove. They were given undisputed right of way, but managed to smash the wagon into kindling before being out. One horse was badly hurt.

—With a plausibility that can turn out five hundred gallons of ice cream a day George A. Shurtliff feels ready for the hottest weather that ever was. He has established himself next door to the shoe factory on South Main street and has every facility for turning out the finest cream in the market.

—The remains of the late Miss Lotie Rockwood arrived in the city this morning at 9:15 o'clock from St. Paul. They were met at the depot by a large number of the intimate friends of the deceased and her family, and taken direct to Oak Hill cemetery, where brief funeral services were held, the Rev. W. F. Brown, of the Presbyterian church, conducting the same.

—Janesville lawyers are noted for their unruffled composure. "The other day in the course of a powerful argument, one of them made several scornful references to his opponent's fair color as a 'graduate of a cemetery.'" Finally he was told quite pointedly that the statement was untrue. "Oh, now, what's the use of your saying that?" he replied. "You know yourself, you graduated from a cemetery or a university or some of them new fashioned schools."

—Nearly half the children that listened to Col. Hagedland's lecture at the Presbyterian church last evening were amateur reporters. The evening gave every teacher in the city a copy of his book as a prize for the scholar who should write the best composition on his lecture, and the youngsters were hard at work. The lecture was Colonel Hagedland's last in the city. It dealt with the benefits of a trade or profession to every person who is ready to start out in life and had for a subject "The Apprentice Boy." Remarks were also made by the Rev. W. F. Brown. Colonel Hagedland will begin his work in Beloit to-morrow, leaving for that city this morning.

—An old stage who came to this locality more than forty years ago, but who has been here and there and almost everywhere since that time, happened in town to-day and called at the Gazette office. He asked, "Did any of you fellows ever hear of the Richards Brothers who planted a saw mill near here on the

FROM AN EYE-WITNESS.

Rock just about forty-five years ago?

Well, they were two great characters as the story goes. I think they stand around here several years after building the mill and then went to Jefferson or somewhere in that neighborhood. When near Janesville they built a house for themselves, 12 feet square, and put a bass-wood floor in it. Of course, you all know something about that kind of lumber. Well, the floor began to shrink, and every year for twelve years they put in a new bass-wood plank to fill up the shrinkage, so you may judge of what was left of the old floor at the end of the twelve years. You may think this is a pretty raw story, but I have seen a bass-wood plank shrink and curl up and carry itself out of the country. The Richard Brothers had to leave. They saved bass-wood lumber and sold it, but it shrank so that in a very few years the settlers could not find their fences or their houses, and the lumbermen became unpopular.

ALLOWED TO BUILD.

Proceedings Against Ed. F. Carpenter are Discontinued.

After a great deal of legal sparring, the dispute between Ed. F. Carpenter and the owners of the upper water power has been settled. It was agreed to-day that the action be withdrawn, each party paying his own costs. The papers filed were signed by William Rugeley for the plaintiffs and E. M. Hyatt for the defendant. It is understood that the settlement was brought about by the affidavit of hydraulic engineers that no damage whatever to the water power would be done by a building like the one proposed.

Mr. Carpenter says that piles will be driven very soon. He seemed quite elated over the result, although throughout the trial he has been confident of success. The suit has settled his right to one of the finest business locations in the city.

BELOIT COLLEGE NOTES.

No Class Honors To Be Awarded—A Class Full of Ministers.

(Special Correspondence.)

Beloit, May 27.—At the Archæan debate last Friday night, the question, "Resolved, That Bismarck has done more for the good of Germany than Gladstone for the good of England" was decided in favor of the negative, two to one.

The nine will play against Lake Forest to-morrow and Evanston Monday.

Our last year's crack pitcher, who so far this season has been unable to pitch owing to a lame shoulder, will be in the box. Beloit stock has risen accordingly.

The first inter-collegiate tennis match which took place at Madison Saturday last, resulted in a victory for Beloit in doubles, and vice versa in singles.

Mr. F. F. Norcross, of Janesville, was one of the double team.

A union meeting of the Delian and Altheian literary societies comes off to-night.

The present graduating class petitioned the faculty to do away with all commencement honors, and were successful, with the exception of the valedictory.

The new board of editors of the Round Table have been elected for the ensuing year.

The Archæan debaters for next year have been elected.

The majority of '87 will eventually study law or theology after graduation.

Appropos of the recent C. & N. W. action it can be said:

Beloit is of humble size;

Her name unknown to fame;

But when it comes to kicking back,

She gets there just the same.

COMING EVENTS.

"Heavenly Hush" this evening at Court Street M. E. church.

High school seniors hold exercises in honor of Memorial Day this afternoon.

Fourth of July committee meeting this evening at the council chamber—8 o'clock.

On Wednesday of next week the county board of supervisors will meet at the court house.

The Presbyterian social this evening at Mrs. J. H. Wheeler's residence, Fourth avenue, second ward.

The business men of Beloit will hold a meeting this evening for the purpose of considering the question of celebrating the Fourth of July.

W. H. Sargent Post No. 20, G. A. R., rally at Post Headquarters this evening—regular semi-monthly meeting.

The children who are going to take part in the Decoration day exercises are requested to meet at Post hall to-morrow afternoon at one o'clock, sharp.

Special meeting of Rock Legion, Select Knights, A. O. U. W. this evening for the purpose of completing arrangements for the parade on Memorial day.

People's Lodge No. 460, Independent Order of Good Templars, assemble in regular weekly session this evening—lodge room in the Court Street M. E. church block.

The Bowler City Cadets will assemble at the Guards armory this evening for drill. The Cadets expect to receive their "carriage" from Madison next Tuesday. Hereafter they will meet for drill twice each week—Tuesday and Friday evenings.

PERSONAL.

—W. J. Lake, of the Milwaukee Sentinel, is booming his paper in this city.

—Major George M. Randall, U. S. A., and wife, who have been visiting the major's brothers and sister in this city for several weeks, returned this morning to Fort Wayne (Detroit) where Major Randall is now stationed.

A Prize for Dally.

Washington, May 27.—The fourth night of the literary contest between Daily and Sexton resulted again in Daily's favor. Sexton had the lead up to the sixth inning, but after that Daily gradually worked ahead, and made his 360 points in the sixth inning, with the help of a very good prediction, which he made was 175. Big runs: Daily—10, 10, 11, 11, 11, 11, 21; Sexton—13, 11, 11.

The Butchers Have a Banquet.

Chicago, May 27.—Fifty beefs and 100 sheep, roasted at Colburnian benefit Thursday for the barbecue held by the National Butchers' association. Fully 2,000 pounds of meat were roasted, and six large quantities of food were served. All the butchers attending the convention here went to the barbecue, and also nearly all the butchers in the city. The annual event attracted a great throng of spectators, and a fine time was had by all. The butchers and their friends had a royal good time at the barbecue with feasting, speechmaking and various jubilation, and returned to the city late in the evening.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 58 degrees above zero, clear with northwest wind. At one o'clock p. m., the register was 73 degrees above zero. Partly cloudy with northwest wind. For corresponding hours one year ago the register was 60 and 72 degrees above zero.

The steady and large increase in sales satisfy to the merits of Fairbank's Pure Soap.

Money to loan.

C. E. BOWLES.

FROM AN EYE-WITNESS.

More Particulars Relating to the Shipwreck, on Wednesday Morning.

Narrow Escape of R. C. C. Keeler, of Beloit.

The Beloit Free Press publishes the following account of the railroad wreck at Shoppers on Wednesday morning, as related by an "eye-witness," evidently the Hon. O. C. Keeler, of Beloit—

The tracks at Shoppers station are three in number, viz, a side track up to the station platform, then the main track, and then a spur or side track for the accommodation of Peet & Keeler's lumber yard, and laid in the order named. Yesterday morning Mr. Keeler and I went to Shoppers from this city to load the lumber on to cars, preparatory to removal to the Beloit yards. For this purpose two flat cars had been sent to Shoppers, and were left standing on the west or platform side track. One of these was pushed down to the main track and from thence switched on to the spur track and up to the lumber yard. When Mr. Stark turned the switch back, instead of connecting the main track, he inadvertently brought the lever entirely over, connecting the main track from the south with the side track on which the flat cars were standing. Just at this time a wild freight train of twenty-three cars, loaded largely with railroad iron, rapidly approached from the south, and running on to the side track at full speed, the engine struck the flat car, the engine being derailed and in a second's time, seemingly, thirteen cars with their loads were piled up in a confused and jammed mass.

At the instant the engine struck, the engineer, Freeman and brakeman were in the cab. The engineer and brakeman sprang from the engine, but the engineer was thrown violently back into the tender, from which he afterwards emerged comparatively uninjured, but laterally black with coal dust. The brakeman was not hurt by his wild leap, but the engineer, Mr. Tufts, of Chicago, was so fortunate. One of his legs was caught by an overturned car, broken and crushed into the earth, from which situation he was extricated by digging the earth away from beneath the imprisoned limb. He showed wonderful nerve and great manly courage throughout the whole ordeal, and when the engine was extricated and carried into Mr. Stark's house, and while suffering intense pain, he exalted a promise from Mr. Stark that in case his lost consciousness, he would prevent the amputation of his leg. His speech was immediately summoned, and arrived at the scene as soon as possible, and after examination, expressed the opinion that the limb would not have to be taken off.

At the instant the train left the main track, Mr. O. C. Keeler was standing on the side track about eight rods from its junction with the main track, with his back towards the approaching engine, and more or less absorbed in conversation with Mr. Stark. As the engine came upon him, he was thrown back by the force of the impact, and fell into the water. He was not injured, but he was very much frightened, and he was very much surprised to find that he was not hurt.

As the train came upon him, he was thrown back by the force of the impact, and fell into the water. He was not injured, but he was very much frightened, and he was very much surprised to find that he was not hurt.
